Sonia Ji is "right" when she says that she does not fear anybody, that is why such "scams" keep coming out in the open: Amit Shah

All I want to ask Sonia Ji is that those who gave bribe are in jail in Italy, then where are those who received the kickbacks?

The Congress-led UPA government has been identified as a government of scams: Amit Shah

At least Sonia Gandhi should trust the judgment of the Italian courts: Amit Shah

It was a "rare dispensation" as scams under it were reported when it was in power and they continue to be reported even two years after it was voted out: Amit Shah

The Congress president should tell the people of the country that who's got the money after all and name those who received the "kickbacks": Amit Shah

BJP National President, Shri Amit Shah, lashing out at Congress, hit out at Congress President, Sonia Gandhi today on Agusta-Westland Chopper scam.

Taking a jibe at Sonia Gandhi over her remarks on Wednesday that she does not fear anybody, Shri Shah said that **even if Sonia Ji is not scared of anybody, but we, in Bharatiya Janata Party, fear the Constitution, rule of law and societal norms.** He said, **Sonia Ji is "right" when she says that she does not fear anybody, that is why such "scams" keep coming out in the open.**

He said, **when the National Herald case occurs, Sonia Ji says that she does not fear anybody and now when the Agusta-Westland case appears, even then she said that she is not scared of anything.** He said, **All I want to ask Sonia Ji is that those who gave bribe are in jail in Italy, then where are those who received the kickbacks?** Dragging Manmohan Singh led UPA government into the dock, Shri Shah said that when the exchange of bribes were happening in the Agusta-Westland case, then, who was in power at that time? He said it is clear that those who were in power at the time, are responsible for the scandal. Shri Shah said, the Congress should bring out the truth and tell the name who are involved in this scam. He said that the Congress is fully exposed in this scam, the Congress will have to face questions from the public on this issue, this issue is not going to ask them to keep quiet.

Shri Shah said, **the Congress-led UPA government has been identified as a government of scams.** He further said, **"it was a "rare dispensation" as scams under it were reported when it was in power and they continue to be reported even two years after it was voted out."**

Taking a dig at the Congress, BJP President said that **at least Sonia Gandhi should trust the judgment of the Italian courts.** He said, **now when it has been proved by the Italian Court that a bribe has been given in this Agusta-Westland Chopper deal, then the Congress president should tell the people of the country that who's got the money after all and name those who received the "kickbacks".** He said that if she says this much, then the truth will come out automatically in front of the people of the country.
