Salient Points of the speech of BJP National President Shri Amit Shah in a huge public meeting in Keonjhar, Odisha

People of the country have decided to get Shri Narendra Modi elected as the Prime Minister once again. In Odisha also ouster of the BJD government is certain. From J&K to Kanyakumari and from Jagannath Puri to Dwarkadheesh there is only one wave and that is Modi wave.

Four generations of Rahul Gandhi have been misleading people by giving slogan of Garibi Hatao and grabbing their votes. But Shri Narendra Modi in his five-year tenure not only attacked poverty but also did lot of work for their empowerment.

In Odisha there was Congress rule for 40 years and BJD is now ruling it since the last 19 years but the state has become more backward. Now the time has come to throw such parties out of Odisha.

This time people of Odisha have to cast two votes- one for Assembly and the other one for Lok Sabha. For both button of lotus should be pressed because these will straight away go to Shri Narendra Modi. If two governments are made by pressing one button then it must be done.

The state of Odisha was founded for the honour and empowerment of Oriya language but even after 19 years CM Naveen Patnaik cannot talk in Oriya. Please should elect a leader who can talk in their language.

In the last five years Modi Government has allocated about Rs.5,56,556 crores for the development of Odisha but this money was not used for the development but was misused by the BJD Government.

For many years there was a demand for a steel plant for Keonjhar district and we will establish such a plant here only.

Modi Government by issuing a postal stamp on Paika Revolution gave it a place in world history. Two museums are made for this.

In BJD Government no work has been done except mining scam. At one end Prime Minister is working for the state's development and welfare of poor people, on the other end MD Shah Commission found large scale corruption in the distribution of mining lease in 2005-2014.

Poor peoples' hard earned money was looted in chit fund scam but Naveen Babu took no action on it. There is corruption happening just below the nose of Naveen Babu but he failed to take any action against corrupt people.

First it was surgical strike after Uri and then air strike after Pulwama, Modi Government has given clear message that India is capable of securing its borders. Terrorists will not be spared.

There was atmosphere of enthusiasm and josh after the air strike but there were two places where people were unhappy, one was Pakistan and the other one was Rahul Gandhi & co.

In Modi Government terrorists will get reply in their own language because for us security of our citizens is more important.

The friend of Rahul Gandhi, Omar Abdullah demands a separate Prime Minister for J&K; he wants two Prime Ministers for the country. On this Rahul keeps mum. Rahul Gandhi you may do vote bank politics but as long as BJP is there, no one can separate Kashmir from India.

After BJP Government is formed in the state farmers will be provided interest free loan, they will be provided irrigation by spending one lakh crore and every farmer will be given pension after 60 years of age.

After the formation of BJP Government in Centre again every farmer of the country will be given a sum of Rs. 6,000 per year. In Odisha those involved in illegal mining will be sent to jails.

By 2022 in Odisha not a single person will remain who doesn't have housing, electricity, toilet and drinking water in house. Adivasis will be given land on lease and GST on Tendu Patta will be removed.
